WHAT LESSON DID I LEARN?

Did you know? Snow Facts

Snowflakes aren't actually white, they are translucent. The sky's reflection is what gives it a white appearance.

What determines the shape of individual snowflakes is the air temperature around it.

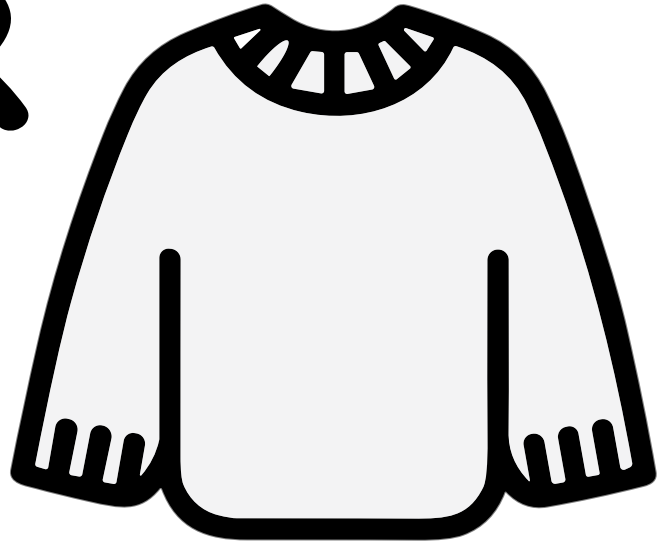

Freshly fallen snow absorbs sound waves, giving a quieter ambience outside after a snow flurry.

Japanese macaques, also known as 'snow monkeys' have been observed making and playing with balls of snow. They love the snow!

Snow is a great insulator. because it is 90 to 95 percent trapped air. This is the reason many animals burrow deep into the snow during winter in order to hibernate. It's also the reason that igloos, can be 100 degrees warmer inside than outside.

Snowflakes can fall at a speed anywhere between 1 to 9 mph, depending on the environmental conditions in the air as they drop.

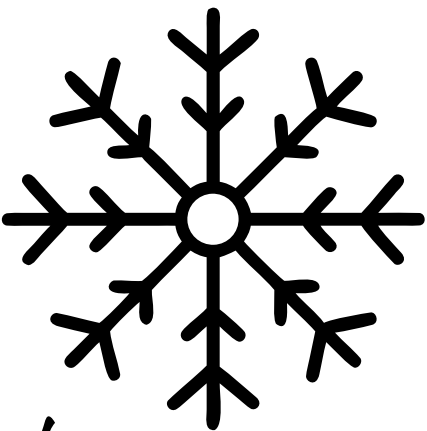

WINTER

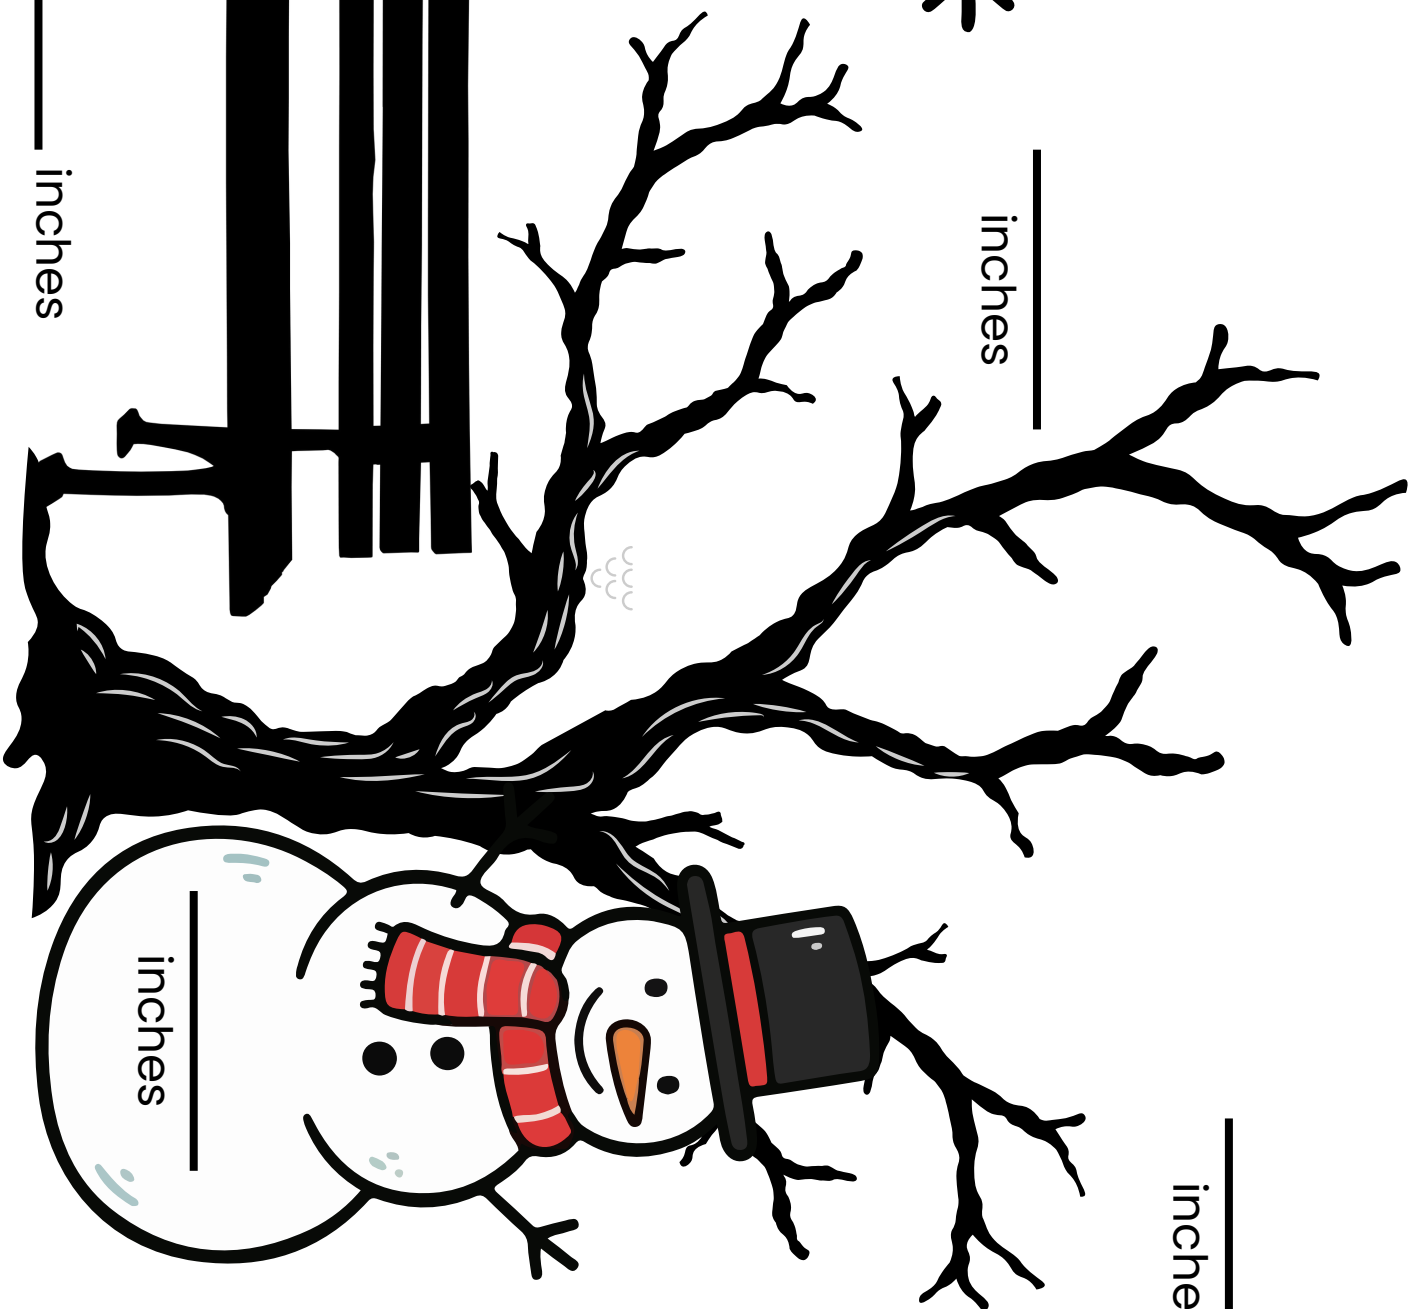

Measuring in the Winter

Use a ruler (inches) and
measure each object

_____ inches

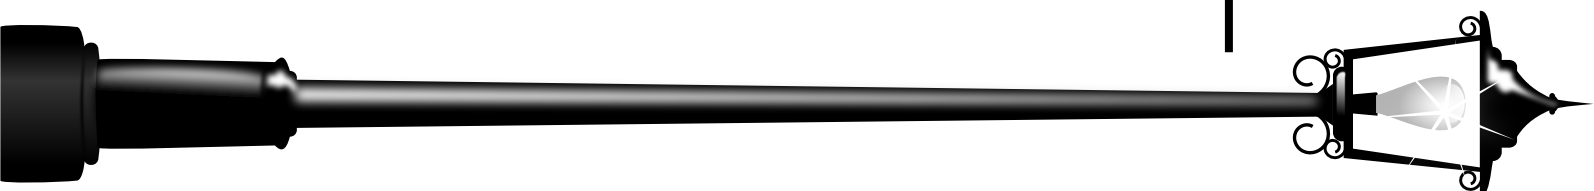

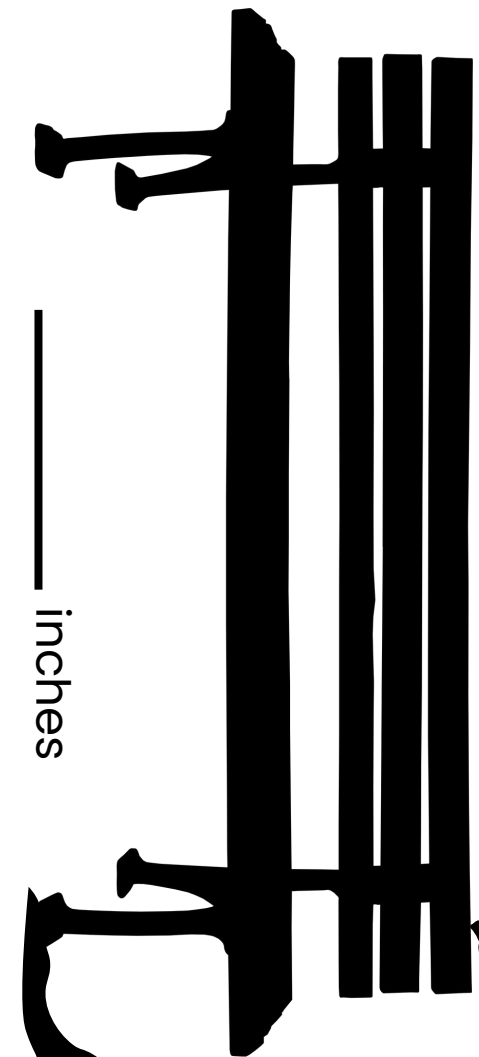

_____ inches

_____ inches

_____ inches

_____ inches

SNOWBALL MATH

Solve the equations. Add, then multiply.

Name: _____

$3 + 1 = 4$ $\times 4 = 16$

$2 + 8$ $\times 9 =$

$1 + 6$ $\times 3 =$

$5 + 4$ $\times 2 =$

$2 + 2$ $\times 7 =$

$6 + 0$ $\times 3 =$

$5 + 3$ $\times 2 =$

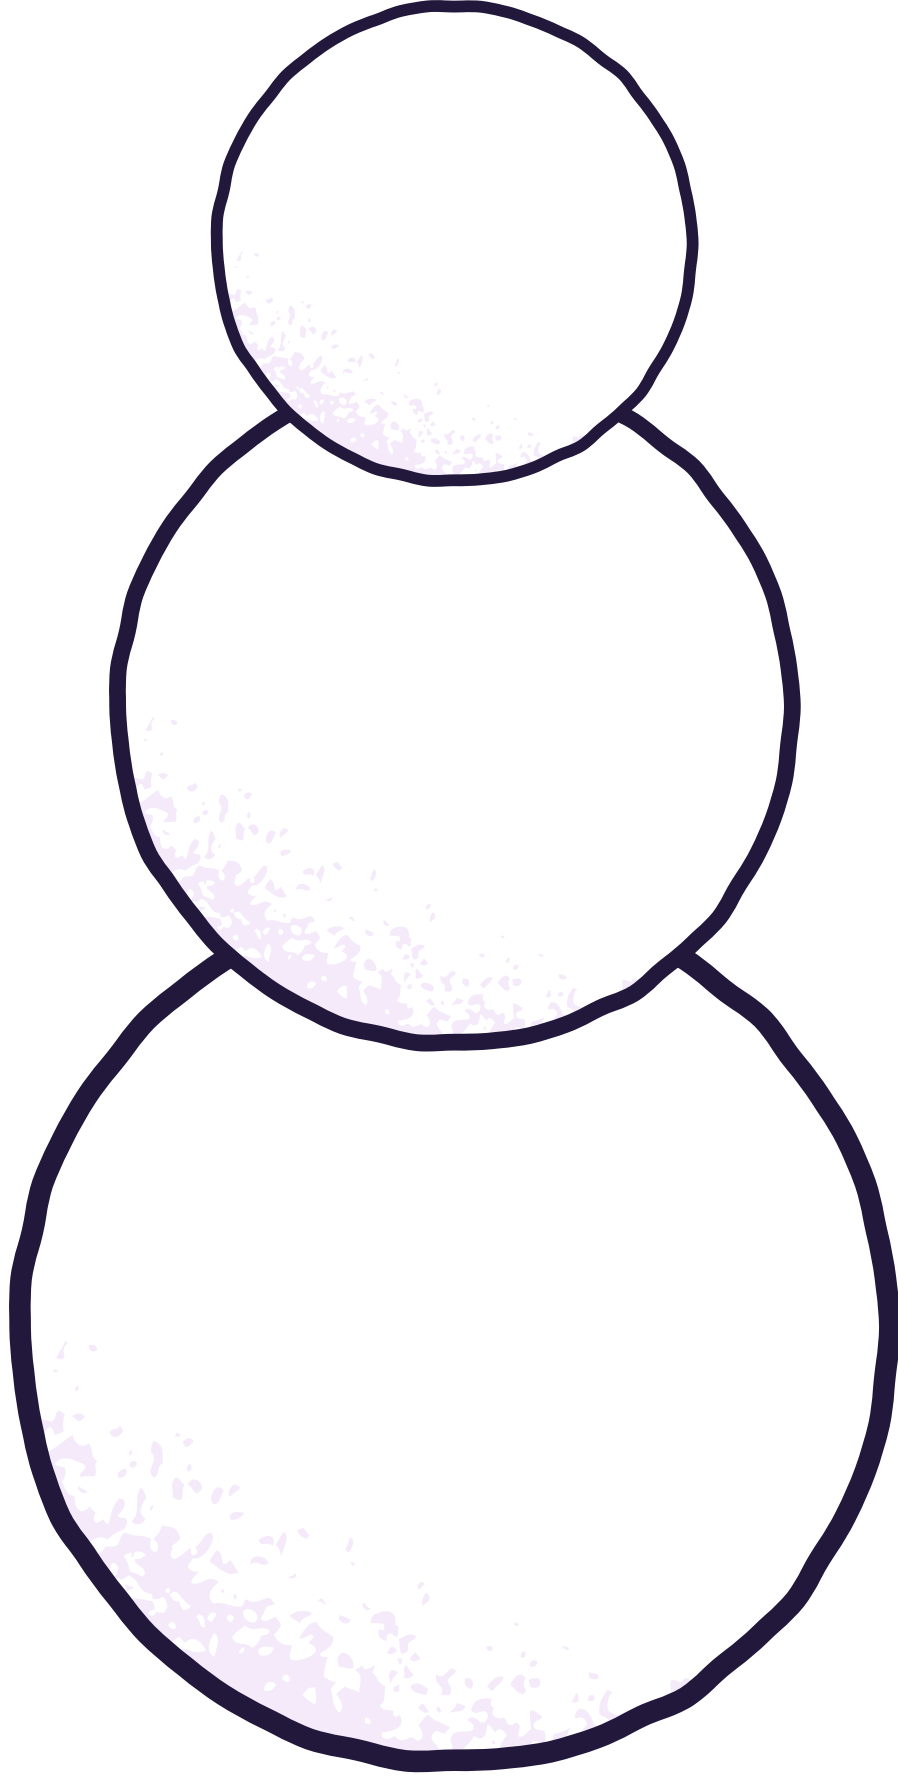

$7 + 3$ $\times 5 =$

$4 + 1$ $\times 4 =$

$4 + 2$ $\times 5 =$

MAKE A SNOWMAN

Color and decorate your snowman. Where is your snowman?
Draw a background setting

TRACE THE SENTENCES

Name: _____

I love snowstorms.

Snow is quiet.

Winter Season is cold.

I like playing in the
snow, it is fun.

I can build a snowman.

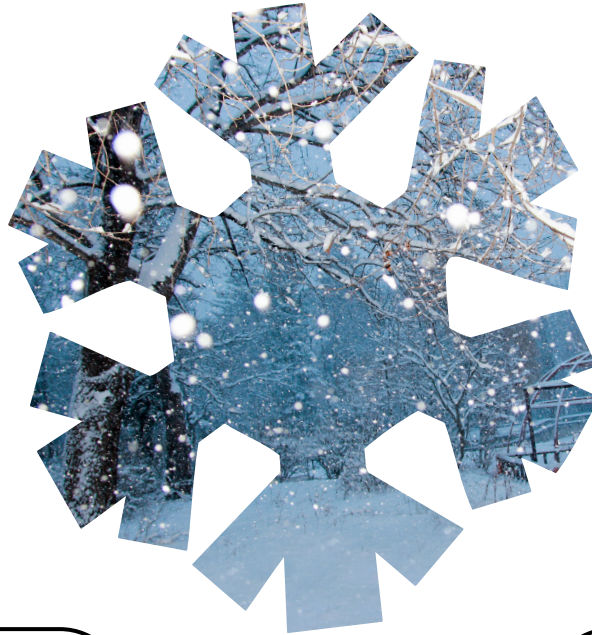

Winter Season is cold.

Winter Season starts
in December.

USE ADJECTIVES

Use adjectives to describe the
Snow and **Winter**.

Name: _____

Extra

WHAT ARE SOME OPPOSITE ADJECTIVES OF WINTER?

STEM PROJECT

SNOWBALL FIGHT

Have the child use blocks and toys to build a fort.
Use cotton balls as snowballs. Use fingers and
different methods to shoot snowballs
over your fort.
Play against each other!
